HKUST IN THE GLOBAL CONTEXT

HKUST is a focused elite research university with a global reputation for excelling in science, technology and business, complemented by humanities and social science. It is an international university with strong ties to global thought leaders, whilst having wide-ranging connections with Mainland China. HKUST promotes interdisciplinary studies, dedicated to educating well-rounded students with a strong entrepreneurial spirit and innovative thinking. It is a university with an Institute for Advanced Study which seeks to become a global premier knowledge hub and incubator of top scientific leaders. It is also a university with a spectacular physical setting, conducive to the pursuit of intellectual and academic excellence.

The Hong Kong University of Science and Technology (HKUST) is dedicated to fostering global leaders, critical thinkers, and innovators. Just two decades after establishment, we were repeatedly ranked the No.1 university in Asia.* Our pursuit of excellence centers on our uncompromising effort to hire the best educators and researchers from around the world, and to serve as a holistic learning arena through a wide range of academic and personal development opportunities and a lively mix of local and international students, vibrant campus life, and global outlook perspectives.

*QS Asian University Rankings 2011-13

Hong Kong is one of the world’s most cosmopolitan cities, holding a distinctive status within China under the unique “one country, two systems” constitutional arrangement. It is a global hub for financial services and business, and a top tourist destination. Hong Kong epitomizes the flow of information, ideas, and creativity that is central to modern society. It also serves as a gateway to and from Mainland China as well as to the international community.

WHO WE ARE

Programs in the biological sciences, physics, chemistry and mathematics, with special emphasis on developing innovative curricula in areas of technological importance.

The prestigious State Key Laboratory of Molecular Neuroscience was established at HKUST in 2010.

SCHOOL OF SCIENCE

The most comprehensive engineering school in Hong Kong. Includes all-round research opportunities and education programs in computer science, industrial engineering, logistics management, mechanical and aerospace engineering, civil and environmental engineering, electronic and computer engineering; and Hong Kong’s only chemical engineering department.

SCHOOL OF ENGINEERING

High-flying undergraduate programs in areas such as technology and management, risk management and business intelligence, and environmental management and technology.

The Division of Environment and Division of Biomedical Engineering leverage HKUST’s cross-disciplinary research strengths.

INTERDISCIPLINARY PROGRAMS OFFICE

A platform for HKUST faculty and students to participate in major Mainland research schemes.

HKUST FOX YING TUNG GRADUATE SCHOOL

Situated in Nansha, Guangzhou, the School provides HKUST with a strong base in Mainland China for research, postgraduate education, and knowledge transfer.

HKUST JOCKEY CLUB INSTITUTE FOR ADVANCED STUDY

More than 50 Visiting Professors and International Advisory Board Members, including Nobel laureates. More than 700 distinguished lectures, seminars, conferences and workshops have been held since the founding of the Institute in 2006.

Network of around 130 undergraduate exchange partners and around 80 postgraduate exchange partners with leading business schools.

INTERDISCIPLINARY PROGRAMS OFFICE

The most comprehensive engineering school in Hong Kong.

SCHOOL OF BUSINESS AND MANAGEMENT

The School’s programs are consistently ranked among the best in the world.

The preprofessional business education program was established at HKUST in 2010.

Network of around 130 undergraduate exchange partners and around 80 postgraduate exchange partners with leading business schools.

SCHOOL OF HUMANITIES AND SOCIAL SCIENCE

The largest interdisciplinary program in humanities and social science in Greater China.

Multi-perspective training and research in fields encompassing anthropology, economics, innovation studies, legal studies, philosophy, political science, sociology and visual art.

The most competitive engineering school in Hong Kong. Includes all-round research opportunities and education programs in computer science, industrial engineering, logistics management, mechanical and aerospace engineering, civil and environmental engineering, electronic and computer engineering; and Hong Kong’s only chemical engineering department.

SCHOOL OF ENGINEERING

The most competitive engineering school in Hong Kong.

SCHOOL OF SCIENCE

The Hong Kong University of Science and Technology
